EXAMINER'S COMMENT

Applicant has successfully pointed out, in his remarks filed August 26, 2005, the passages in his specification that explain the screw cramp and its relationship to surrounding structural elements as per the Examiner's request.

Allowable Subject Matter

Claims 1 through 6 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record neither shows nor suggests all of the elements comprised by claim 1 in combination and particularly:

"the lamp box has a screw-inserting component through which a fixing screw for fixing the lamp box to the lamp housing is threaded;

the lamp housing has a screw cramp for fixing the fixing screw threaded through the screw-inserting component; and

the lamp door has a screw-turning component adapted to engage with a groove on the head of the fixing screw when removed from the case."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
